For millions of Filipino professionals,
English isn't just a language we use at work.
It's the language we have to think,
respond, and perform in.

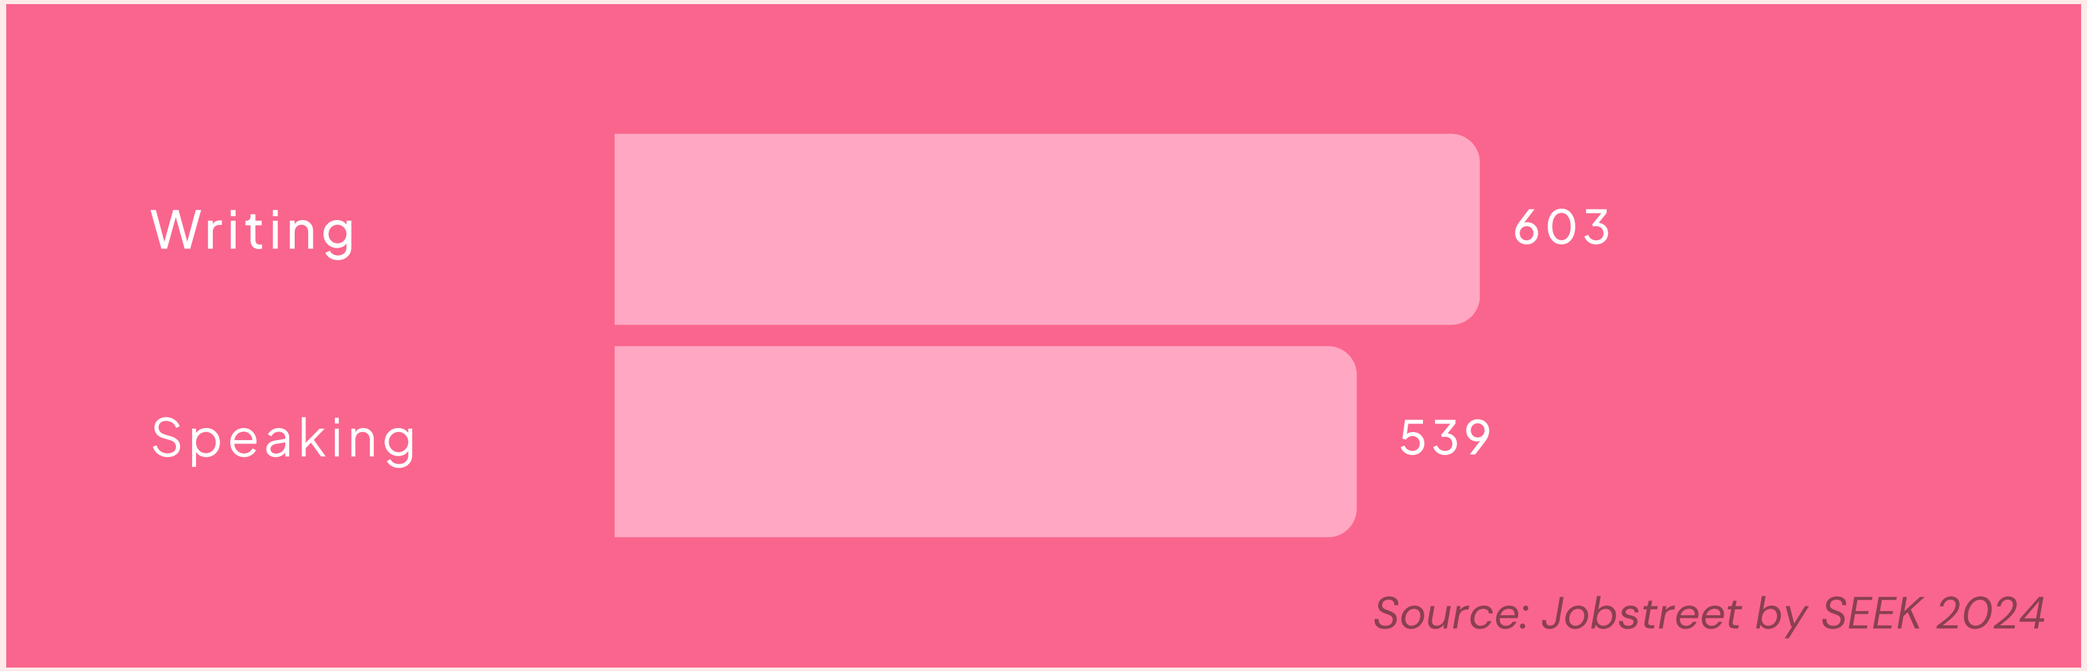
ENGLISH PROFICIENCY INDEX

Source: EF EPI 2025

Philippines EF EPI score, above the global average of 488.

The Philippines already has strong English proficiency.

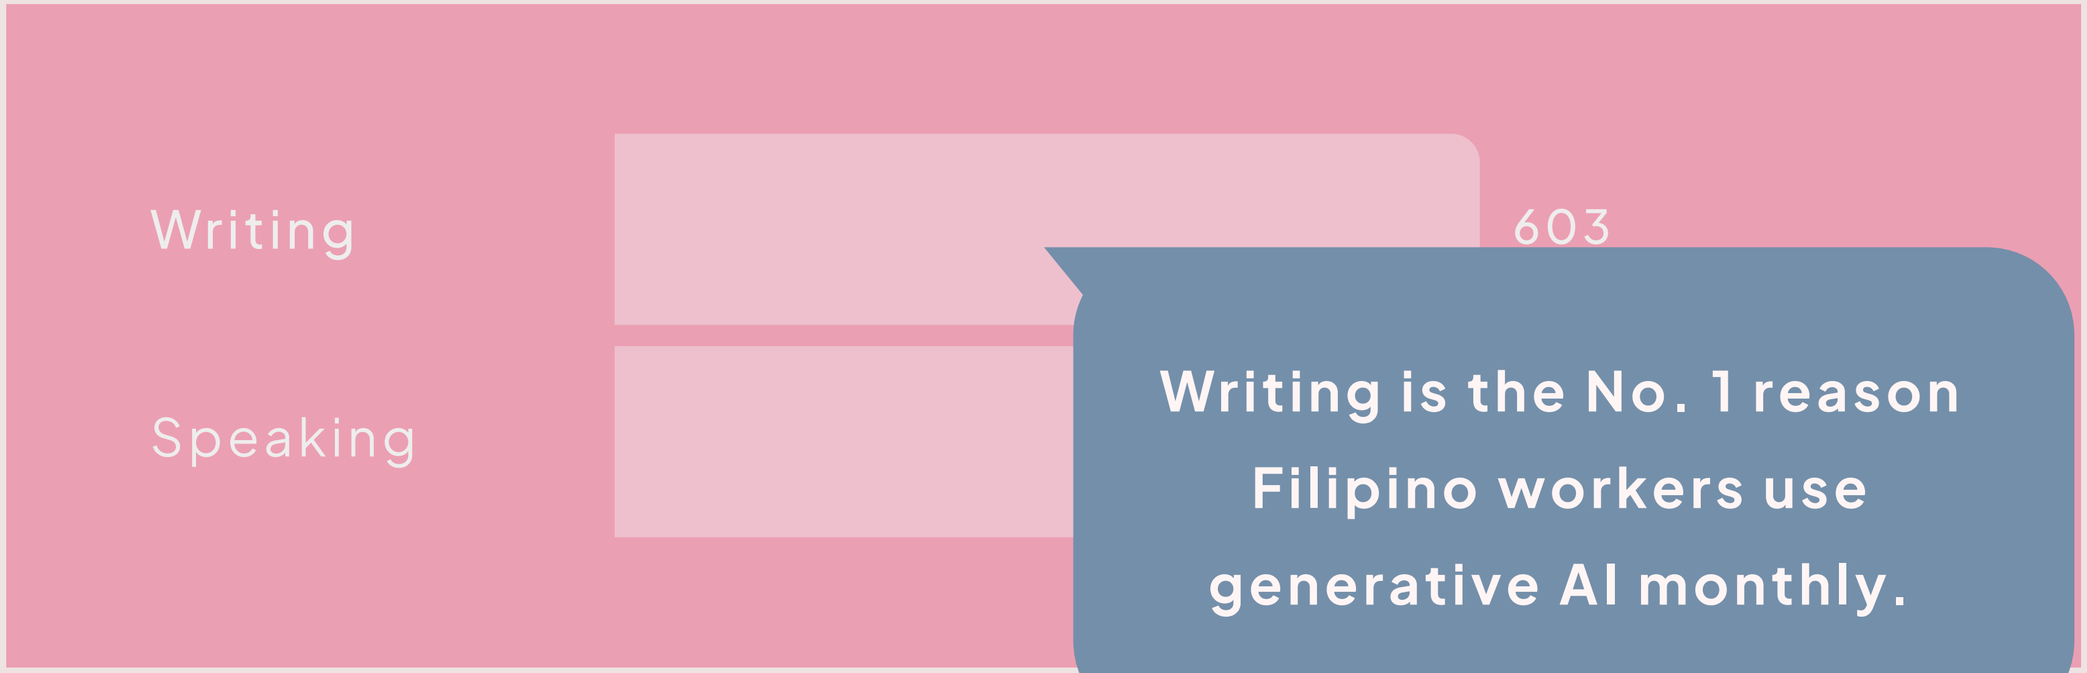
EF EPI SCORES BY SKILL (PHILIPPINES)



But writing and speaking don't perform the same.

64-point difference

EF EPI SCORES BY SKILL (PHILIPPINES)



But writing and speaking don't perform the same.

64-point difference

Tool	What it does	What it misses
Translators	Convert Language A to Language B	Can't handle code-switching (e.g., Bisaya/Taglish) or preserve subtle intent like qualifiers (basin).
Grammar Tools	Polish a sentence already formed	Assume the user is writing in one language
AI Assistants	Rewrite or generate on request	No real-time approval workflow; alters intended meaning without safety checks.
Meeting Agents	Record, summarize, translate	Help you review the call, not survive it

Mean It. Control It. Relay It.

RELAYA

Communication and Language AI

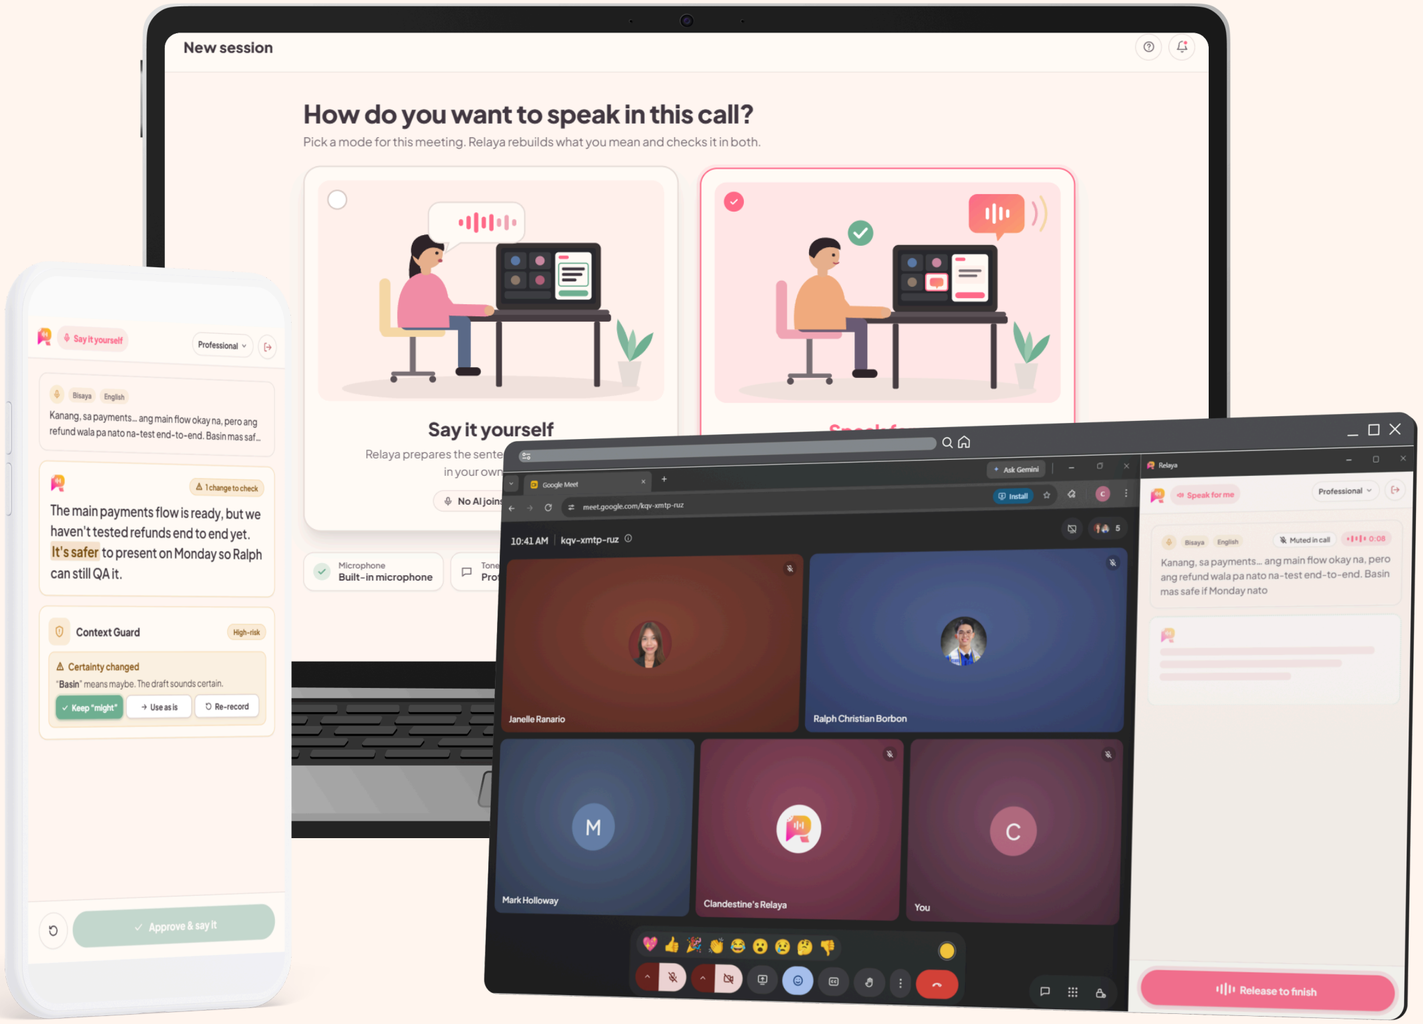
TEAM ANNERA

AI COMMUNICATION ASSISTANT

RELAYA

NOTABLE FEATURES

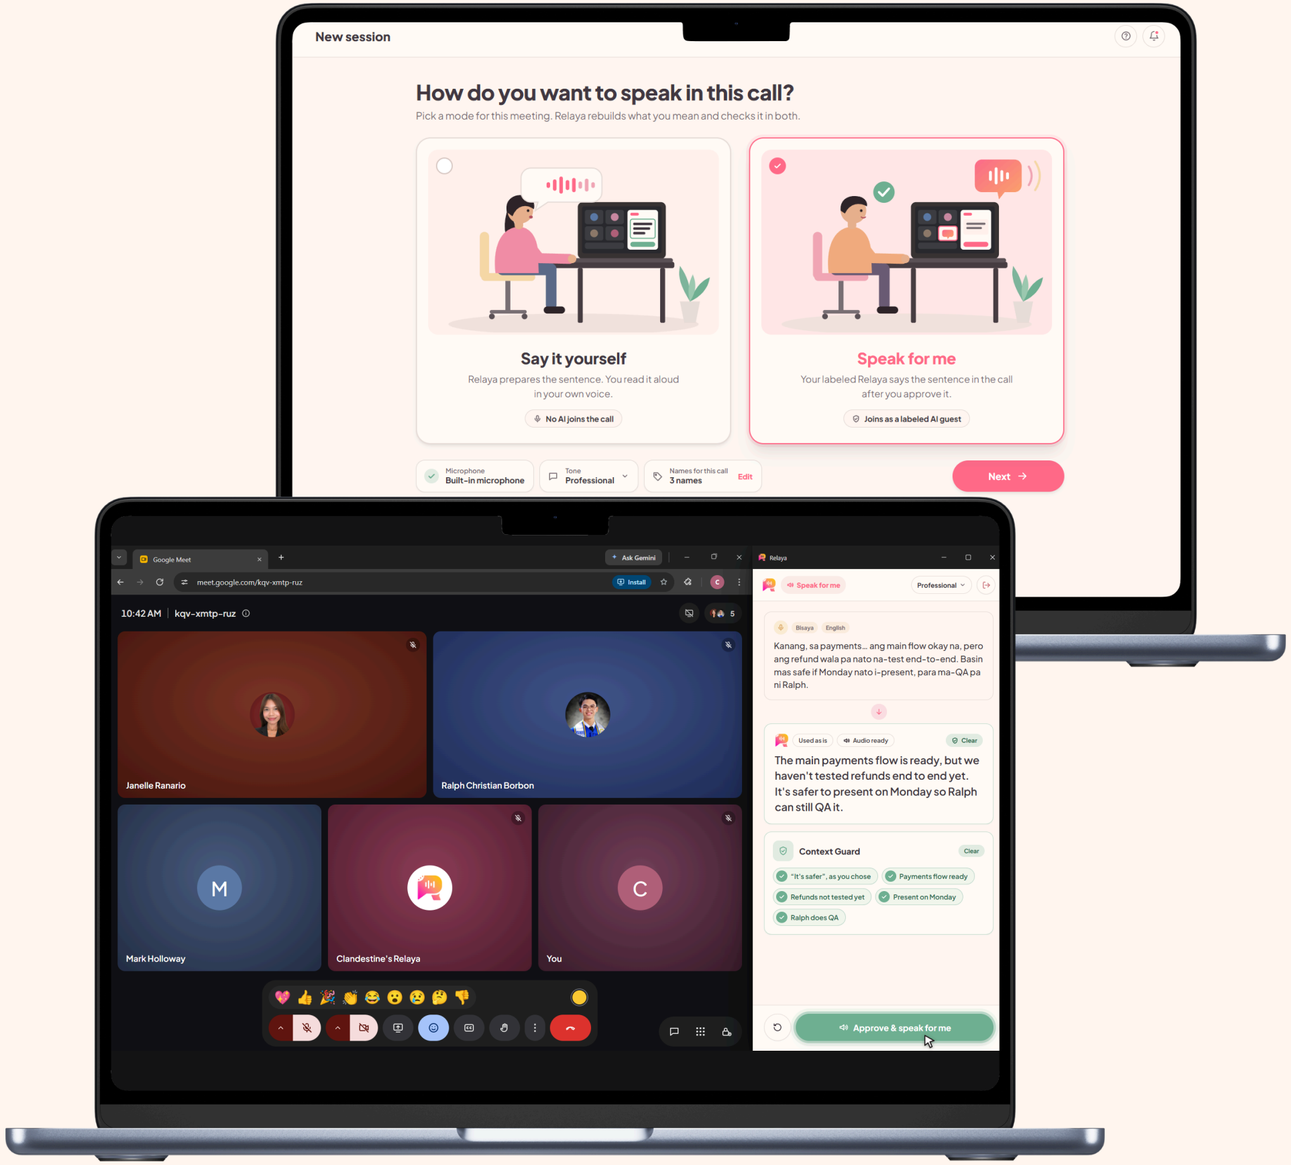
- Dual-Mode Delivery
- Code-Switched ASR & Intent Reconstruction
- Context Guard
- Professional Tone
- Call Glossary
- Mandatory User Approval

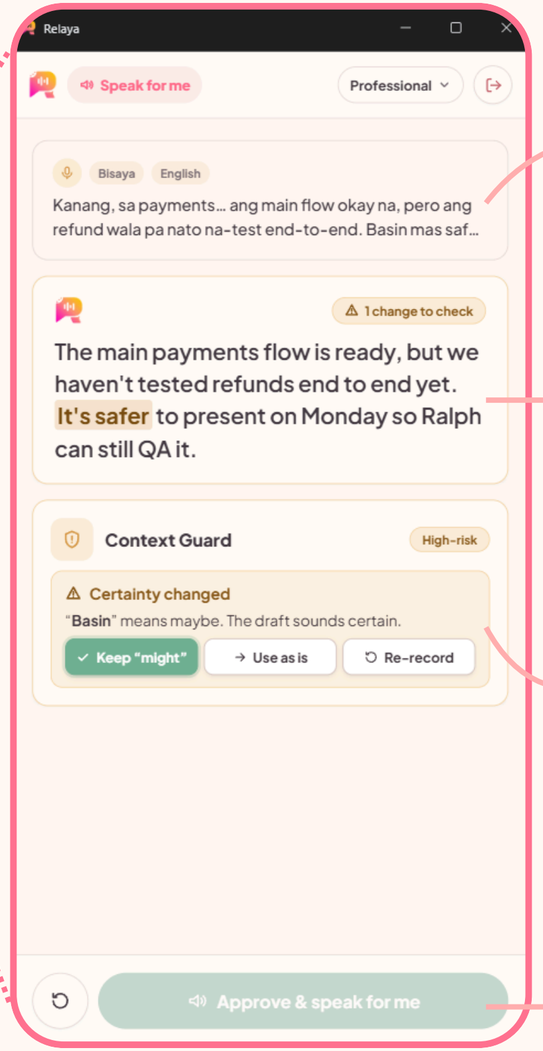


DUAL-MODE INTENT RELAY

One channel, Total Control.

Speak naturally. RELAYA reconstructs your intent, flags risks with Context Guard, and delivers only after your approval, whether you say it yourself or use AI speech.





1. Speak

2. Reconstruct

3. Context Guard

4. Final Approval

Preserving Intent Through Context Guard & Final User Approval

Bisaya | English

Kanang, sa payments... ang main flow okay na, pero ang refund wala pa nato na-test end-to-end. Basin mas saf...

1 change to check

The main payments flow is ready, but we haven't tested refunds end to end yet. It's safer to present on Monday so Ralph can still QA it.

Context Guard | High-risk

Certainty changed

"Basin" means maybe. The draft sounds certain.

Keep "might" | Use as is | Re-record

Approve & say it

3. CHECK

Say it yourself | Professional

Bisaya | English

Kanang, sa payments... ang main flow okay na, pero ang refund wala pa nato na-test end-to-end. Basin mas safe if Monday nato i-present, para ma-QA pa ni Ralph.

Clear

The main payments flow is ready, but we haven't tested refunds end to end yet. It might be safer to present on Monday so Ralph can still QA it.

Context Guard | Clear

"Might" matches "basin" | Payments flow ready

Refunds not tested yet | Present on Monday

Ralph does QA

Approve & say it

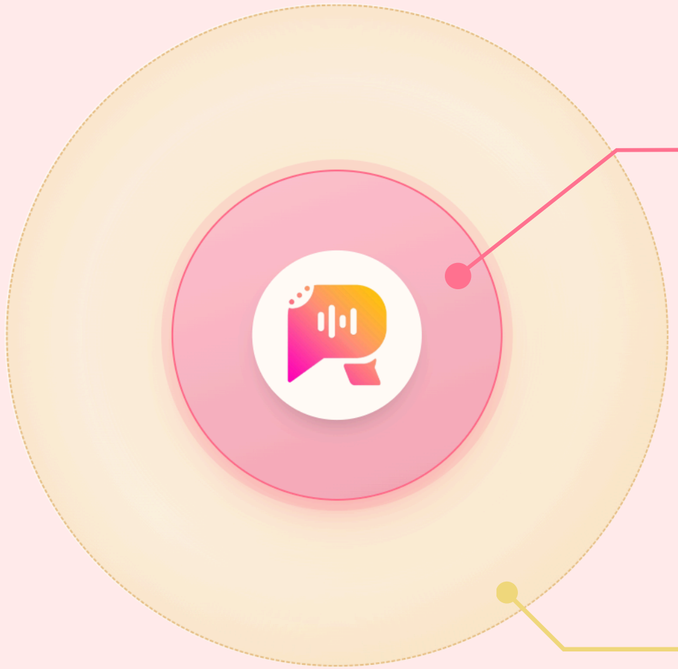
TARGET MARKET



The call changes, but the need to be understood doesn’t.

PRIMARY MARKET (INITIAL PAYERS)

FILIPINO REMOTE PROFESSIONALS

Freelancers, VAs, devs & consultants in live English calls.

Pain: Real-time sentence formation while code-switching (Tagalog/Bisaya + English).

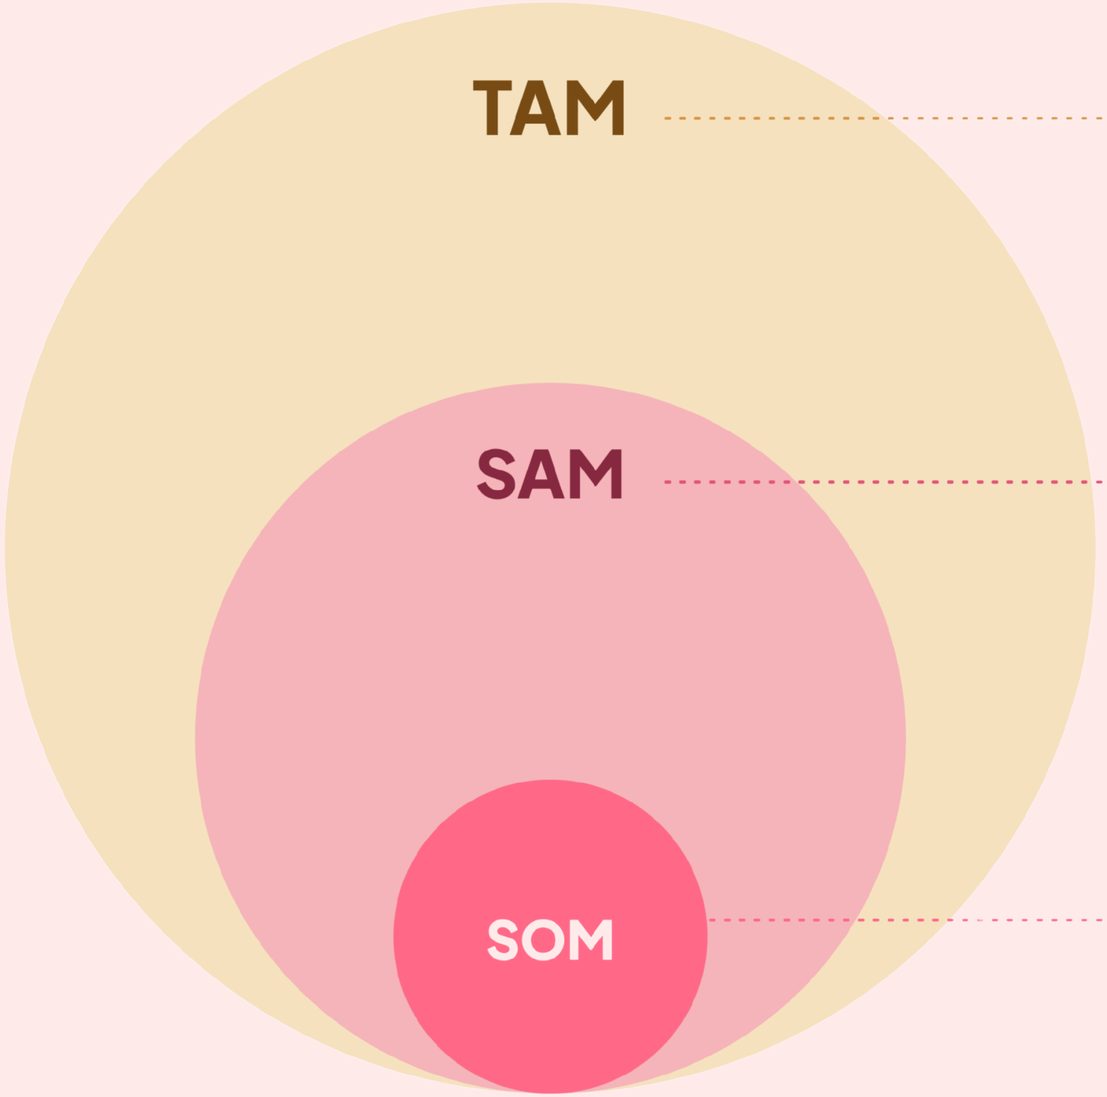
EXPANSION & SECONDARY

IT-BPM TEAMS & ONLINE STUDENTS

B2B Team Tier: Agencies standardizing client communication tools.

Secondary: Students in live English-medium video calls.

MARKET ANALYSIS



3.4M people

English-working professionals: IT-BPM employees plus online freelancers

PHP 10.2 to 16.3 billion a year

690,000 people

Freelancers who already use generative AI at work (1.5M × 46%)

PHP 2.1 to 3.3 billion a year

1,000 to 3,500 users

Reachable in the first 12 months after launch (0.15% to 0.5% of SAM)

About PHP 0.2 to 0.7 million a year at 5% paid

Sources: IBPAP 2025 (1.9M IT-BPM workers); Manila Bulletin, Jan 2025 (about 1.5M freelancers); Jobstreet by SEEK, Nov 2024 (46% use generative AI monthly). Overlap between groups not removed. 5% paid rate assumed for SOM revenue.

SDG PRIORITIES

SDG 8. Decent Work and Economic Growth
Filipino professionals compete more effectively in international work.

SDG 17. Partnerships for the Goals
Cross-border collaboration becomes easier between people who don't share a first language.

SDG 10. Reduced Inequalities
Communication access is not determined by language speed.

SDG 4. Quality Education
Students can participate in English-heavy academic settings.

Project Roadmap

01

Phase 1 (now)

Working prototype. Zero cost.

02

Phase 2 (4–9 months)

Validation with 30+ users. Agent moves to cloud.

03

Phase 3 (9–15 months)

Paid individual tier. First paying cohort.

04

Phase 4 (15–24 months)

Team tier. Language expansion.

PROGRESS AND TRACTION

46%
Filipino workers using generative AI monthly for work

50%
of them use AI for writing

64pts
lower English score for speaking than for writing

CURRENT PROGRESS

- Product, architecture and cost model designed
- Two delivery modes defined: Say it yourself and Speak for me
- Interactive prototype of the full user flow, for demonstration only
- Pricing and free-tier model set (PHP 249–399/month)

TRACTION INDICATORS

01

Before funding

Interview 15–20 target users and survey 30–50 on pricing

02

Pilot

30 users over 2 months; target 60% of sentences approved without edits

03

Growth

300+ monthly active users within 6 months of launch

USE OF FUNDS

PHASE 2: BUILD, VALIDATION & PILOT

Budget Category Breakdown — PHP 80,000
